

## Employment Opportunity

The following new employment opportunity has arisen within our institution

### Technical Business Analyst

The ideal candidate will be educated to degree level and will have previous experience working for a software company and / or a financial institution. The Technical Business Analyst will play a pivotal role between the business functional teams and the technical delivery teams.

The position will call for an excellent understanding of core banking system, Temenos T24. QA automation testing experience and at least one programming language, preferably Core Java would be a distinct advantage.

Responsibilities will include but are not limited to:

- Owning the overall design of assigned technical projects (custom or product strategy)
- Recommending best practices for T24 solutions based on business needs
- Development and executing of automated test plans
- Strategic design and mapping of business requirements and solutions to system / technical requirements
- Writing a technical specification for custom development and / or systems integration to T24
- Effectively facilitate meetings, demonstrate brainstorming / consensus building skills, and interact with project stakeholders

We offer an attractive remuneration package and an opportunity to join a professional and motivated team in a successful fast-growing financial institution that is fully committed to Gibraltar.

If you think that you are suitable for this position, please send your application with your current CV to:
