

Securities Trading Guide

TURICUM Connect enables clients to place their security transactions in a broad investment universe including all main equities listed on the major stock exchanges, investment funds and exchange traded funds.

Market, Limit and Stop-Loss orders can be traded irrespective of our business hours.

How to place a Buy Order?

To place a buy order, click on the menu item 'Buy Order' under 'Wealth Management / Trading'

This will open a pop up which allows you to search the security via its ticker, security name or ISIN and to select it from a drop-down menu. Should the security not be available on the drop-down menu, then this security is not currently set up for trading and you should contact your Relationship Manager. Once the security has been selected you can input Order Type, i.e. Market or Limit and quantity of security you wish to buy. In case of a Limit Order, you are requested to input Limit Price and Limit Expiry Date.
