1. Introduction

This Report includes the top 5 execution venues for orders placed for execution with other entities under Art 65 (6) “Commission Delegated Regulation (EU) 2017/565”. In addition, this document contains a summary of analysis and conclusions we draw from our monitoring of the quality of execution obtained where we executed and transmitted client orders in the previous year 2022.

Directive 2014/65/EU on markets in financial instruments (MiFID II) requires investment firms who execute client orders to summarize and make public on an annual basis, for each class of financial instruments, the top five execution venues and the top five brokers, in terms of trading volumes where they executed client orders in the preceding year and information on the quality of execution obtained (art. 27.6). For the purposes of this report it should be noted that Turicum Private Bank Limited (hereinafter referred to as Turicum or the Bank) only places client orders via its brokers and not directly on any trading venue.

This report is prepared by Turicum and should be read in conjunction with Turicum’s Best Execution Policy which can be found under Section 2.2 of our ‘General Terms and Conditions’ on our webpage: <https://www.turicum.com/images/Turicum%20Private%20Bank%20-%20General%20Terms%20and%20Conditions%20-%20Version%2031.1.2023.pdf> which sets out the general basis on which we aim to provide “best execution” when executing orders in financial instruments as required by MiFID II.

As a regulated investment firm, Turicum is required to take all sufficient steps to obtain the best possible results for our clients on a continuous basis when executing orders or transactions on behalf of clients and when transmitting orders or transactions to other entities for execution. Turicum has a policy and processes in place to ensure we meet our Best Execution obligations, taking into account certain factors, criteria and execution venues.

This report summarizes our analysis and conclusions drawn from the monitoring of the quality of execution obtained where orders were executed for the calendar year 2022 (the “Reporting Period”).

As Turicum does not distinguish between Professional Clients and Non-Professional Clients for execution purposes, the broker reports are not split between these client groups.
