

Employment Opportunity

Due to successful business expansion, the following new employment opportunity has arisen within our institution:

Infrastructure Engineer

To provide comprehensive all round 3rd line infrastructure support, including servers, networks, virtualisation and applications as well as project based work to continually improve the infrastructure environment.

Responsibilities will include:

- As a senior member, you will play an active role in ensuring the availability, integrity and performance of systems and services
- Provide input to the design of future technology platforms
- Ensure systems are kept up to industry and vendor best practices

The ideal candidate will need to have the following skills:

- MS technologies, Active Directory, MS Server experience up to 2016
- Virtualisation (VMware preferably)
- Cloud technologies (Office 365, Azure)
- Knowledge of networking and firewall configurations
- Powershell or other scripting experience
- VOIP telephony, preferably 3CX
- Storage technologies
- Ideally a minimum of 7 years' experience, preferably in the financial services sector

If you think that you are suitable for this position, please send your application with your current CV to:
